Tech for people unlocks the future

Creative tech for Better Change

Who am I

My friends says: Anders is born lucky

Luck is not something you can earn, but it is something you can increase your chances of encountering by putting yourself in the right place at the right time and being prepared to take advantage of any opportunities that come your way." - Brian Tracy

Anders Kristiansen

**Principal
Azure Security Lead**

Devoteam M Cloud

Trusted Microsoft partner **in EMEA**

Sized for agility and scale

5 partner solution areas covered

15 specializations

Business Applications

- 
-  Dedicated Microsoft teams
 -  Regions with selected Microsoft expertise
 -  Devoteam International Training Center
 -  Devoteam Microsoft Center of Excellence

At **Devoteam M Cloud Norway** we enable businesses to imagine and realize the full potential of their cloud transformation through smarter use of Cloud Technology.

Devoteam **M Cloud**

Opinionated advisors

How do we deliver

- We work with the customer, not for ourselves
- Value based delivery projects
- We share knowledge and work in teams
- The customer is directly involved and participating in deliveries
- Workshop series with all stakeholders to involve and teach the new platform.

Accelerated Cloud Enabler

by Devoteam M Cloud

The fastest and safest cloud journey – we've built it, so you don't have to

Devoteam's ACE framework provides an **enterprise-grade cloud migration adapted to your needs:**

- ▶ Where others use a year, we use **1-3 months**
- ▶ The migration is guaranteed **secure and compliant**
- ▶ We will **strengthen** your IT resources' cloud competence and confidence

Devoteam M Cloud's ACE (Accelerated Cloud Enabler) framework helps customers migrate quickly and safely and reach the full potential of the cloud, and it consists of three core elements:

Methodology

The ACE methodology is a complete set of processes based on an agile approach with efficient sprints.

Principles

ACE is based on certain principles, such as automation, pre-made design decisions, all implementation as code, zero trust and repeatability.

Customer enablement

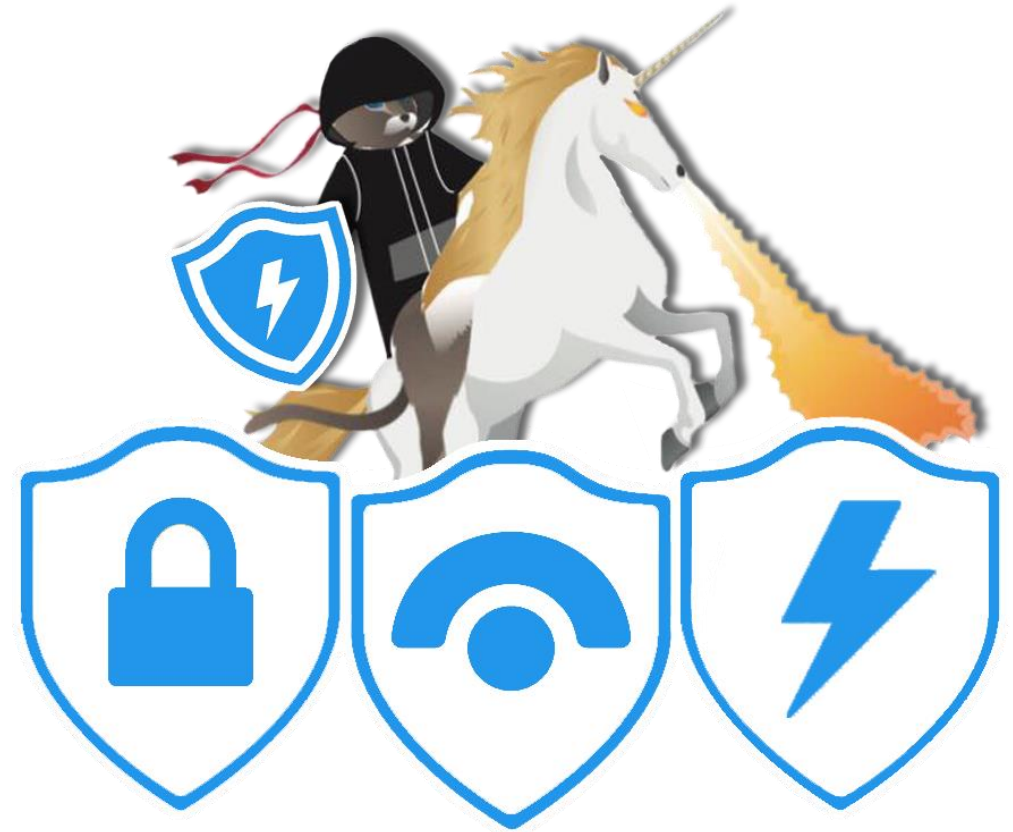

ACE customers will own the implementation and the code and be trained and enabled through active participation in the processes.

Nice try Anders!
let someone else do the sales pitch next time

Now to CTF 😊

Microsoft Security

USER GROUP

Microsoft Security Immersion Event : [Join us at 30th March!](#) Shadow Hunter

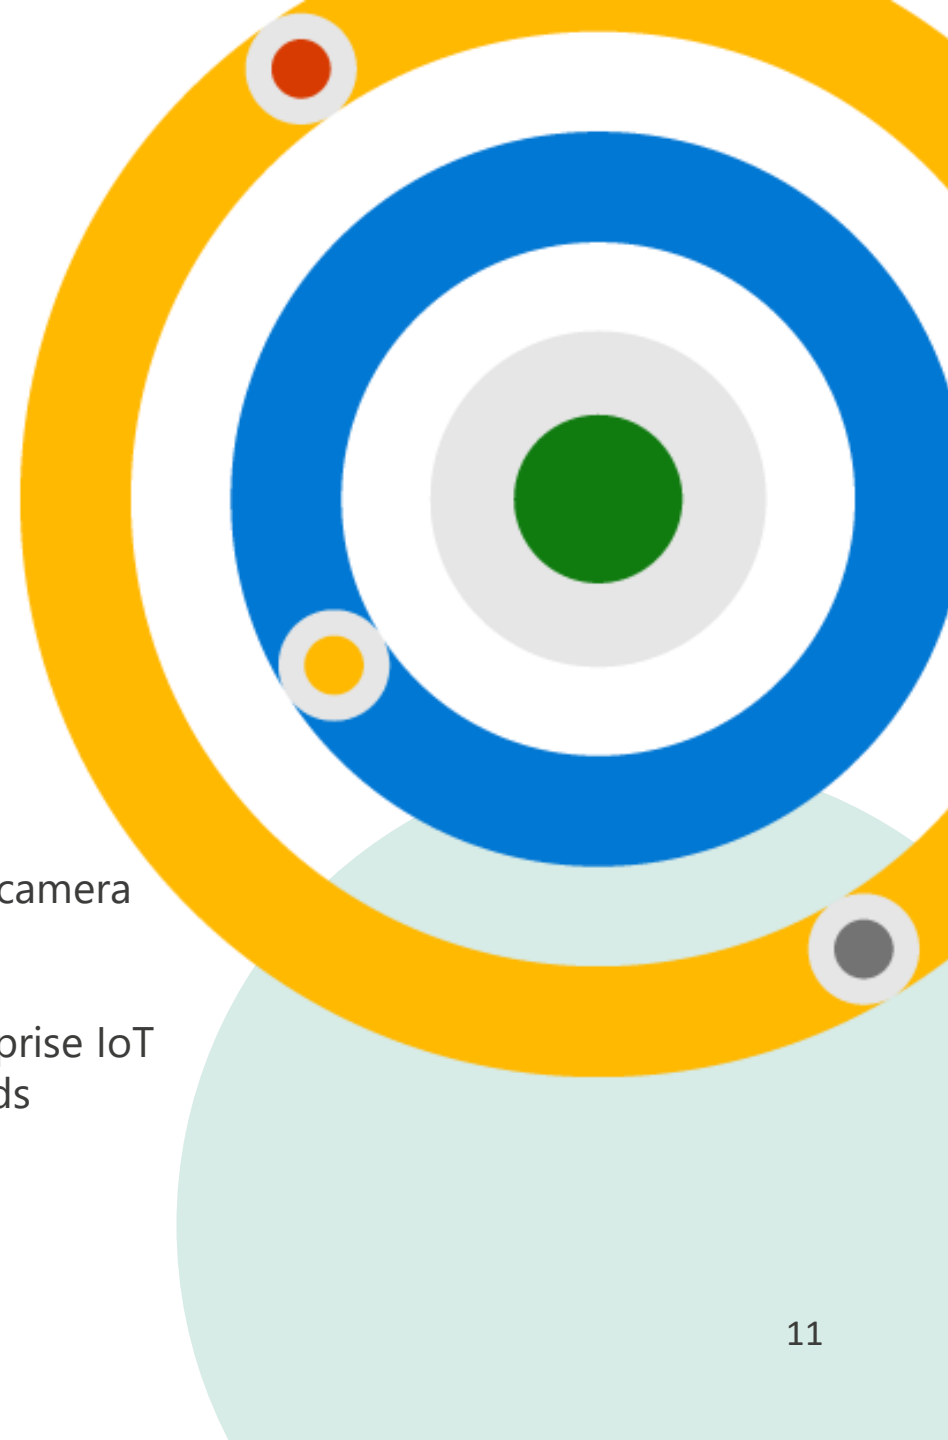

Are you ready to test your team's cybersecurity skills in a fun, interactive one-day experience?

The Mission:

Players take on the role of a security analysts to find the attacker that has gained network access through a security camera in your office's building.

Monitor risky workloads that may not be visibly there, such as Enterprise IoT and Hybrid cloud workloads. At the end of the day, protect workloads running on Azure, hybrid, and multi-cloud to save the day..
